

Dear Parents/Caregivers,

Our school offers a **Boys' only classroom**. The aim of a boys' classroom is to raise the standard of each boy's emotional, social and academic development.

This is a composite Year 7 / Year 8 class and is limited to an intake of 30 students. If this class is over-subscribed, then a ballot will take place. The boys will still be required to do everything that any other pupil is required to do, however the learning environment will differ in that it will be focused on meeting the boys' needs.

A boy's classroom has numerous benefits such as; student centred learning, encouraging independent learning, the enhancement of critical thinking skills and improvement of self-esteem. The concept of boys' learning has proved successful in our school.

There will be no extra fee for students in the boys' classroom, and any boy is welcome to apply for this class. This is an exciting opportunity for the students of Te Awamutu Intermediate and compliments the variety of options our school provides.

To secure your child's place in this classroom please complete the form below and return to the school office by Friday, 25th September, accompanied by a written reference from your child's teacher and your completed 2021 enrolment forms. If you require additional information, please contact Jill Shaw (Deputy Principal) or Matiu Paraone (Boys' Class Teacher).

ENROLMENT FOR THE 2021 BOYS' CLASS

I would like my child to be enrolled in the boys' classroom. I understand there is a requirement to work in partnership with my son, his teacher and the school. I will also be present at student led conferences and any other necessary appointments.
